Total		128

Specific Program Objectives:

- Master Scripture using a biblical theology approach, which allows the teaching of the Bible to unfold naturally according to author's intention and literary design with special attention to genre and overarching themes of each Bible book
- Reflect on the contributions of leading scholars regarding biblical theology and theology in culture
- Address the pertinent issues related to biblical theology and theology in culture and analyze Scripture and other contributions related to those issues
- Formulate conclusions and personal applications regarding those issues

Bachelor's Course Requirements:

- Bachelor's students are held to a university level of academic rigor and production.
- Bachelor's are required to complete all reading reports, bachelor's programme course projects, "great book" report, the oral exam, and the summary project (term paper).
